GUIDING COUPLES THROUGH  
DIVORCE AND SEPARATION

We are a group of experts working with separating and divorcing couples.

We offer a comprehensive and cost effective fixed fee service for dealing with your divorce.

Divorce and separation do not create purely legal problems. There are also the emotional, financial and practical issues, which to deal with properly require a wealth of professionals. Yet often people do not get the help they need because they are only dealing with one professional and are worried about costs. That's why we put together our fixed fee packages to help clients access the right help at the right time for a fixed price.

Separating from a partner can create conflict which impacts on all involved, especially any children. Our packages help you access the resources you need to keep conflict to a minimum and create a resolution that will work for your family.

## **We have three different packages.**

Choose the level of help you need and tailor the package to your individual circumstances by adding extra fixed fee services. You have peace of mind knowing you stay in control of your costs.

You can also add a further range of services from trusted professionals not part of *Surrey Divorce Solutions* at a discounted price and exclusive to clients using our packages.

## OUR PACKAGES

Each package is for a fixed cost depending on which package or add on service you choose. You pay the service provider for each service you take at the fixed cost.
